Participants:- Girls and ladies staff of all Department,P.E.S. College of Engineering, Aurangabad

Venue:- Vaishali Girl’s Hostel , PESCOE

Objectives:

To Understand the state of well being, free from disease or diseases, both physical and mental is indeed a wealth.

Abstract:

‘Health is wealth’ is a world-famous proverb concerning health. A healthy body is

defined as the overall ability of the body to function well. It includes the physical, mental, emotional, and social health of all individuals. When one maintains good health, he/she opens the key to happiness.

When maintaining health, it depends on multiple factors such as drinking water regularly, exercising, eating healthy foods, sleeping on time, etc. Healthy life also ranges from the people you spend time with to the air around that you breathe.

Health contains lots of equally important components. Even if one of the components goes missing, a person cannot remain as healthy. The prime source of happiness and bliss is our health.

Awareness surrounding breast cancer is incredibly important as early detection, often through screening, can catch the disease when it is most treatable.

Outcomes:

- ◆ Understand the Living a healthy lifestyle help prevent chronic diseases and long-term illnesses.
- ◆ To raise awareness and reduce the stigma of breast cancer through education on symptoms and treatment.
- ◆ Increasing the knowledge of the public on the benefits of early detection, changing attitudes and behaviors to seek early detection services, and raising awareness around breast cancer and cancer prevention in general; An ability to use current techniques, skills, and tools necessary for computing practice.
